

I am writing to let you know that I like the no call for Wisconsin just the way it is. At the end of the day I want to be able to sit down with my family and not be bothered by telemarketers calling me and telling me that I need to switch back to their product or service because their's is better, and then for them to tell me on my phone that I'm not able to decide for my self what is best for my family. If these people need to get in contact with me then they should have to do it the old fashioned way and send it in the mail, at lest that way I can decide weather or not I want to look at thier product or not. I would also like to ask that any of my personal information on this page not be used for any reason, I thank you for your cooperation.
